The After-Final amendment is denied entry for the following reasons:

1. Claim 63 sets forth a new subgenus of compounds (e.g., formula II) that has no direct support in figures 9 and 10 to which Applicants refer (e.g., see 11/3/05 Response, page 6; see also figures 9 and 10, which do not disclose the currently claimed formula (II)). Thus, new search and consideration will be required and possible new matter issues will be raised with regard to the newly claimed subgenus. In addition, Applicants state, "[c]laims 69 and 70 corresponds to previously presented [c]laims 61 and 62" (e.g., see 11/3/05 Response, page 6, last two lines). This statement is false. For example, claim 69 includes (E)-2-(4-(2-(bis(4-fluorophenyl)methoxy)ethyl)piperazin-1-yl)-4-phenylbut-3-enoic acid (i.e., the compound in the top right corner of the claim), which was not previously listed in claims 61 or 62.

2. There is no reason given for why the amendment was not earlier presented.
